

harmon.ie 7

Six new features for working smarter

Reimagine how your knowledge workers sort, save and search for business-critical information. With the new **harmon.ie 7**, your organization has the tools to work smarter than ever before.

1

Improve email retention results

harmon.ie 7's intelligent email management gives enhanced suggestions about where to securely save emails.

Ace Office 365 adoption

harmon.ie 7's new onboarding experience makes it easier than ever for new users to log into SharePoint and Office 365.

2

3

Fluent like Microsoft

harmon.ie 7's new-look interface follows Microsoft's latest Fluent design, so users aren't confused by different brand styles.

Get more from mobile

harmon.ie 7 integrates with Outlook Mobile, letting users upload emails directly to SharePoint and Office 365 from anywhere.

4

5

Topic computing for Office and OWA

harmon.ie 7 now brings topic computing to Office and OWA – not just Outlook Desktop. This means that whichever Microsoft tool you're in, harmon.ie will use AI to tag content with relevant, contextual keywords.

In sync with the Microsoft Stack

harmon.ie 7 works smoothly with all the latest Microsoft updates and now supports SharePoint 2019 and Office 2019.
